

April 2025

These are two great care managers who exemplify the work and care that Lifespan prides itself on.

Megan Ziegler

Corey Kaplan

Megan Ziegler is like an old time private eye...she's there you just don't know it! She is stealth, she is here, she is there, she is everywhere! If it needs done, she takes care of it. If an emergency delivery of food is necessary—she does it.

And she has been doing it for over 23 years! To honor her she couldn't just get an average run of the mill hand made trophy, she needed something extra special.

Something to keep her smiling for another 23 years!

Thanks Megan for your dedication and perseverance!

On the right is the consummate team-player, **Corey Kaplan**. She has that “do what you have to do to get the job done” attitude. She helps out with produce packing and delivery one time a month as well as spending a day at the Steel Valley Center to pack and distribute food to our consumers! She is one of our Microsoft “Team” geniuses, and she is always creating presentations for our care managers to help them be as technologically competent as they can be!

She is appreciated more than she realizes!
